

FREELANCERS · SHOPS · SERVICES · TRADES

We integrate customized AI into your business.

Nintegraw l-IA mfassla apposta fin-negożju tiegħek.

CHATBOT · BY VOICE · AUTOMATION

Whatever your trade, **Noezys** builds AI around the way you already work. Answer clients, take bookings and clear the admin — automatically. One assistant, made to measure. **No technical skills required.**

"Technology should serve people — not the other way around. We build AI that gives independents their time back, and their customers a better experience."

MANIFESTO NOEZYS

1

An assistant that never sleeps.

Chatbot or voice, on your site, WhatsApp or phone. It answers questions, books appointments and captures every lead — 24/7, even when you can't.

2

Always online, in every language.

A polished website and social presence, powered by AI and updated by a simple message. Every customer reads you in their own language — locals and tourists alike.

3

Less admin. More business.

Invoicing, scheduling, reminders and follow-ups handled automatically — the tasks that eat the hours you'd rather spend on your craft.

NOEZYS GUARANTEE

Built around your trade. You own everything . No lock-in.

Mibni apposta għax-xogħol tiegħek — xogħol tiegħek, regoli tiegħek.

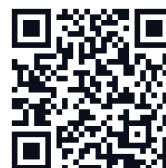

Custom-built

Your tools, your data, no per-message fees
